TRAINING INTRODUCTION

This training course has been developed for the Shift Team Leader working in the hazardous E&P oil, gas and petrochemical industries. Shift Team Leaders play a vital and integral part of the whole operation providing the balance between direct management and the remaining workforce. To ensure that operations run smoothly 24/7, throughout the year, the operational importance of this critical role should not be underestimated. Personnel undertaking this role need to be developed correctly to ensure that they are equipped with the right skills, competencies and knowledge to make a difference.

On this training course, delegates will learn about the importance of their role, how to manage and lead others, problem solve, allocate resources effectively, lead and manage their teams as well as develop team members to achieve their best performance. This course is essential development for any Shift Team Leader in the industry.

TRAINING OBJECTIVE

By the end of this training course, participants will have learnt and experienced practical applications of:

DMCT/OL/9/18(Rev3Dt:23/9/18)

- Understanding your self-awareness, as well as your role in the organisation and management style in order to effectively apply self-management.
- Define effective problem solving, risk identification and analysis within your working environment
- Apply powerful interpersonal techniques to improve communication and manage others effectively
- Apply development, coaching and feedback techniques to increase optimum people performance management
- Improve team cohesion and impact on production through your management and actions

TRAINING METHODOLOGY:

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions, and motivate everybody find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on daily basis to examine the effectiveness of delivering the course.

All presentations are made in excellent colorful power point. Very useful Course Materials will be given.

- 30% Lectures
- 30% Workshops and work presentation
- 20% Group Work & Practical Exercises
- 20% Videos & General Discussions
