TRAINING OVERVIEW

TRAINING DESCRIPTION

Project managers who have proven skills and experience can find exciting high-visibility opportunities in a wide range of fields. This course is specially designed to provide with the proven practical body of project management knowledge and skills that you need to demonstrate project management on the job. Additionally this course can be significant part of your preparation for the Project Management Professional (PMP®) certification exam. The skills and knowledge you gain in this course will help avoid making costly mistakes and increase competitive edge in the project management profession.

TRAINING OBJECTIVES:

Following are the objectives and participants will be able to:

- Get a jump start to help them prepare for the PMP® exam.
- Manage a project in compliance with the Project Management Institute (PMI®) standards.
- Use the project management framework, processes and the nine project management knowledge areas.
- Apply project management skills, tools and techniques to deliver projects on time and within budget.

- Identify key concepts not mentioned in the *PMBOK® Guide*.

TRAINING METHODOLOGY

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivate everybody find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on daily basis to examine the effectiveness of delivering the course.

All presentations are made in excellent colorful power point.

Very useful Course Materials will be given.

- 30% Lectures
- 30% Workshops and work presentation
