

**Training Title**

**BEHAVIORAL BASED SAFETY MANAGEMENT**

**Training Duration**

**5 days**

**Training Dates & Venue**

REF HS038	Behavioral Based Safety Management	5	11-15 October 2020	\$4,500	Dubai, UAE
--------------	---------------------------------------	---	--------------------	---------	------------

**Will be held in any of the 5 star hotels. The exact venue will be intimated once finalized.**

**Training Fees**

- **4,500 US\$ per participant for Public Training includes Materials/Handouts, International Buffet Lunch, Tea/Coffee Refreshments**

**Training Certificate**

**Define Management Consultancy & Training Certificate of course completion will be issued to all attendees.**

**TRAINING DESCRIPTION**

**What is Human behaviour? – Deft definitions of common terms less understood**

**Attitudes-Behaviour-Ethics-Morals-Values-Beliefs-Perceptions-Culture-Decision analysis-**

**Cost/benefit analysis-Motivation-Reinforcement-.Reward-Society-Product and how each of them affects the human behaviour**

**TRAINING OBJECTIVES**

**Research shows that two thirds of accident victims consider their accidents could be avoidable. In other words they feel that something could be done to reduce their incidence. Accidents can be caused by any one (or combination) of the following behaviours. *alapse of attention or a genuine mistake* or by a lack of knowledge or lack of training or through misunderstanding a situation or deliberately which entails in loss of productivity. It could be also environmental issues and equipment fault /failure. A fault in a machine can be identified by routine checks but understanding human behaviour is tricky. This course is designed to explain such benign issues and motives /inabilities and traits to prevent loss and accidents**

**The course is divided into ten topics which will be distributed in 5 days. This was a course that had a warm welcome and very active participation.**

*DMCT/OL/9/18(Rev3Dt:23/9/18)*

**TRAINING METHODOLOGY:**

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions, and motivate everybody find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on daily basis to examine the effectiveness of delivering the course. Very useful Course Materials will be given.

- 30% Lectures
- 30% Workshops and work presentation
- 20% Group Work & Practical Exercises
- 20% Videos & General Discussions

**WHO SHOULD ATTEND**

This course is aimed for engineers, officers, team leaders, supervisors & those who are interested to participate and improve the HSE performance of the organization.

**COURSE OUTLINE**

1. Attitude and behavior – social norms – safety culture – goal setting and feed back – unsafe behavior and accidents – management and ownership commitment – conflicting rewards – continued improvement.
2. Steps to behavioral change – work groups
  - safety sampling measures – safety team of workers
