TRAINING OVERVIEW

TRAINING DESCRIPTION

Leadership means the ability to influence a group toward the achievement of a particular goal. A dynamic leader motivates and influences the group to achieve Quality Management.

TRAINING OBJECTIVES:

The aim of this training program is to create an awareness, appreciation, and application of this multi-disciplinary approach.

BENEFITS:

All Participants will gain theoretical knowledge and practical exposure to competency in giving effective presentations.

TRAINING METHODOLOGY:

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivate everybody to find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of the multiple-choice type will be made available on a daily basis to examine the effectiveness of delivering the course. The most up to date training methodology is used to present this workshop. The workshop is carefully designed to address practical style of learning and to fully engage participants. Tutorials are used through individual exercises and group discussions. These discussions provide opportunities for personal participation in simulated real situations. During these discussions the participants will discover what they might
