TRAINING OVERVIEW

TRAINING DESCRIPTION

This intensive HSE leadership course is designed to equip participants with the knowledge and skills necessary to effectively lead Health, Safety, Security, and Environment (HSSE) training and awareness practices. Through a combination of lectures, case studies, group discussions, and practical exercises, participants will gain insights into best practices for designing, implementing, and evaluating HSSE training programs.

TRAINING OBJECTIVES

1. Understand the importance of HSSE training and awareness in industrial settings.
2. Learn strategies for developing comprehensive HSSE training programs.
3. Explore effective communication techniques for delivering HSSE messages.
4. Acquire skills for assessing HSSE training needs and evaluating training effectiveness.
5. Develop leadership competencies for promoting a culture of safety and environmental stewardship.

WHO SHOULD ATTEND

This course is ideal for HSSE managers, supervisors, team leaders, and other personnel responsible for overseeing HSSE training and awareness initiatives. It is

DMCT/OL/9/18(Rev3Dt:23/9/18)

also suitable for individuals seeking to enhance their leadership skills in the field of HSSE.

TRAINING METHODOLOGY

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivate everybody to find the right answers. The delegates will also be encouraged to raise their own questions and to share in the development of the right answers using their own analysis and experiences.

- 30% Lectures
- 30% Workshops and work presentation
- 20% Group Work & Practical Exercises
- 20% Videos & Software
