TRAINING OVERVIEW

TRAINING DESCRIPTION

Project managers who have proven skills and experience can find exciting high-visibility opportunities in a wide range of fields. This course is specially designed to provide with the proven practical body of project management knowledge and skills that you need to demonstrate on the job. The skills and knowledge you gain in this course will help avoid making costly mistakes and increase competitive edge in the project management profession.

TRAINING OBJECTIVES:

Following are the objectives and participants will be able to:

- Manage a project in compliance with the standards.
- Use the project management framework, processes and the nine project management knowledge areas.
- Apply project management skills, tools and techniques to deliver projects on time and within budget.
- Identify key concepts of project management.

TRAINING METHODOLOGY

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivate everybody to find the right answers. You will also be encouraged to raise your own questions and to share in the

DMCT/OL/9/18(Rev3Dt:23/9/18)

development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on daily basis to examine the effectiveness of delivering the course.

Very useful Course Materials will be given.

- 30% Lectures
- 30% Workshops and work presentation
- 20% Group/individual Work or projects & Practical Exercises
- 20% Videos & General Discussions, Case studies etc.

WHO SHOULD ATTEND

This course is designed for persons who have on the job experience performing project management tasks, whether or not project manager is their formal job role, who are not certified project management professionals, and who might or might not have received formal project management training. The course is appropriate for these persons if they wish to develop professionally, increase their project management skills, apply a formalized and standards-based approach to project management, seek career advancement by moving into a formal Project Manager job role.
